WANTS AID FOR RUSSIA.

League of Free Nations Makes Plea to United States.

NEW YORK, January 17.—An appeal for a fair, free and honest attempt to reach a mutually friendly agreement relative to the attitude of the United States toward Russia was embodied in a letter sent to Acting Secretary of State Davis by the League of Free Nations' Association and made public here.

The communication was in the nature of an answer to the letter writ-

ten by the acting Secretary of State to Alton B. Parker on January 8, which characterized as false the statements made by the association in an open letter to the presidential candidates under date of October 29,

candidates under date of October 23, 1920.

The association, in its letter to the presidential candidates, charged that the United States government had refused to permit Russian relief, had confiscated passports to Russia, hindering free communication, and had helped armed intervention there.

The recent statement of Mr. Davis to the effect that relief work in soviet Russia would not be hindered and that passports would be granted to the Russian frontiers, the association stated, had been drawn since the time of its original letters to the candidates. The association pointed out that the information given the candidates was true when given.

This new policy, if carried out, the association asserted, will facilitate relief work and lead to a frank discussion of an enlightened foreign policy between the United States and Russia.

BRIAND TO MEET PREMIER.
